GLOBAL STONE TECHNOLOGY FORUM

An International Stone Technology Conference

9-10 January 2025 | Kishangarh, Rajasthan

About GSTF

The Global Stone Technology Forum (GSTF) is an international platform focused on technological developments and new trends in the dimensional stone industry. The forum brings together key industry players such as quarries, producers, machinery suppliers, architects, engineers and builders to share their acquired knowledge and experiences.

10th Edition

The event will be held on 9-10 January 2025 at the conference hall of Kishangarh Marble Association, Kishangarh. Organised by CDOS (Center for Development of Stones) and RIICO (Rajasthan State Industrial Development and Investment Corporation). Laghu Udyog Bharati is supporting the event as the co-organiser.

TECHNOLOGY IS THE BUZZWORD OF THIS CONFERENCE

CONFERENCE THEME

This year's theme is based on technological developments and innovations in the dimensional stone industry.

- Technology Innovation
- New Strategies in Marketing
- Architectural Uses of Stone
- Reuse of stone waste and slurry

Who can participate?

- Mine operator and mine machine manufacturer
- Natural stone processors, unit operators and machine manufacturers
- Exporter & Importer of Natural Dimensional Natural Stone
- Natural Stone Technical Scientist / Engineer
- Natural Stone Technical Suppliers / Players
- Natural stone installation and renovation consultants
- Civil & High Rise Engineer
- Interior Designer
- Architect
- Geologist
- Building & Township Builder
- Research student

Key Sectors and Participant Focus Areas:

- CSIR - Waste Management and Sustainable Use
- NSDC - Worker Skill Development
- REPC - Export Procedures & Global Expansion
- Mining environment awareness and safety protocols
- Value-Added Services: Machinery & Chemicals
- Succession and knowledge transfer with values in family business
- Innovation Automation & Digital Technologies
- Endorsed by RIPS-2024 and RIICO

Benefits of attending the conference

- Knowledge of new technology trends: Opportunity to know the latest technological developments and their application.
- Networking with experts and stakeholders of the natural stone industry: Opportunity to connect with leading personalities and like-minded professionals in the natural stone industry.
- Knowledge of research and development: Opportunity to understand new dimensions of research and latest development possibilities.
- Understanding of new market trends and opportunities: Identification of emerging trends and business opportunities in the natural stone industry.
- Global exposure: Opportunity to learn from the views and experiences of experts.
- Business collaboration: Platform to explore new business partnerships and opportunities.
- Education and skill development: Gain knowledge on new technologies, processes, and mine management related to the natural stone industry.
- Environmental awareness: Knowledge on ways to practice sustainable mining and production practices.
- Stone Waste Solutions: Information on innovative methods of reusing natural stone waste and slurry.
- Future Planning Guidance: Guidance on contributing to the future prospects and growth of the natural stone industry.

Centre for
Development of Stones

Centre for Development of Stones

CDOS is a leading organization for the dimensional stone sector located in Jaipur, Rajasthan. CDOS aims to bring global recognition to Rajasthan's stone industry and promote exports. It develops the local stone industry through sustainable processes, technological advancement, and government involvement. Through participation in international exhibitions and new policies, it works to advance and prosper the stone industry.

Laghu Udyog Bharti

Laghu Udyog Bharati, established in 1994, is a national organisation for micro and small industries. With 961 branches spread across 575 districts, it works for the progress and redressal of problems of the industry.
